Extra Credit: Company Stack Research

Company	Tech Stack (main ones used)	Why did they choose these
Spotify	● C++ ● JavaScript ● React	Per their website, they chose this stack based on the ability to add new features quickly and because they used to have a web player and app player in separate 'containers' but now it is in one.
Netflix	● Python ● Node. js ● Java ● Kotlin ● Swift	This tech stack was chosen to ensure compatibility on all platforms(TV, mobile, desktop, laptop, tablet, etc.)as well as a polished look and easy UI.
Reddit	● Apache Spark ● Apache Flink ● Python ● JavaScript ● React js	This tech stack was chosen for compatibility on multiple platforms(mobile, laptop, tablet) and for data storage capabilities.
